

A Family Decision

We know that camp is not for every child or parent. If, however, your child and you are excited about the opportunity it can be a wonderful, life changing experience!

Every first year camper is concerned about being away from home. It is very normal and expected by the people who will be taking care of your child. If you are comfortable saying good bye it will make it much easier for your child to adjust. It isn't easy (we know because we did it for our children) but it is important to send your child off with a hug and a confident smile.

Accepting a scholarship is an important family commitment. Each one is precious. Not showing up or failing to complete the session (or sessions) awarded to your child will prevent another child from enjoying a scholarship.

Please know that we understand that plans can change. We only ask that you let the teacher who offered the scholarship know as soon as possible if your child is unable to attend.

Focus For a Future Facts

- Total number of children placed in camps this summer: 448
